Priya Patel

Frontend Engineer - React, TypeScript and performance

priya.patel@example.com | 555-0102 | Ahmedabad

Target role: Frontend Engineer | SYNTHETIC SAMPLE CV - fictional person, for software testing only

PROFESSIONAL SUMMARY

Frontend engineer with 4 years of experience. Focuses on performance budgets and accessible interfaces, and has used Redux and Zustand in production, preferring the simplest tool that fits.

TECHNICAL SKILLS

React, TypeScript, JavaScript, CSS, Redux, Zustand, Next.js, Vite, Web Vitals, Cypress, Jest

EXPERIENCE

Frontend Engineer, Nimbus Travel (fictional) [3 yrs]

- Moved a single Redux store to feature-scoped Zustand stores, cutting re-renders on the search page by 60%.
- Set up performance budgets in CI and fixed a hydration mismatch that caused layout shift on server-rendered pages.
- Introduced end-to-end tests covering the booking funnel.

Frontend Developer, Vistula Media (fictional) [1 yr]

- Built news-site components in React and CSS Modules; implemented infinite scroll with intersection observers.

PROJECTS

Bundle-size watcher

GitHub Action that comments on pull requests when the bundle grows by more than 5%.

Accessible date picker

Keyboard-first date-range component with ARIA support.

EDUCATION

B.Tech. Information Technology, Western Institute of Technology (fictional)
