Marcus Johnson

Junior Backend Developer

marcus.j@example.com | 555-0103 | Leipzig

Target role: Backend Engineer | SYNTHETIC SAMPLE CV - fictional person, for software testing only

PROFESSIONAL SUMMARY

Developer with 2 years of experience, including an internship and course projects building web APIs in Python. Eager to learn production practices such as testing, containers and monitoring.

TECHNICAL SKILLS

Python, SQL, Docker, Flask, FastAPI (learning), SQLite, PostgreSQL basics, Git, unit testing with pytest

EXPERIENCE

Backend Developer, Kleinwerk Software (fictional) [1 yr]

- Added Flask endpoints and database migrations to an inventory tool under a senior engineer's review.
- Wrote pytest tests that raised coverage of the orders module from 55% to 80%.
- Containerised the service with Docker and documented the endpoints for the team.

Teaching Assistant, Hochschule Elbe (fictional) [1 yr]

- Ran weekly lab sessions on databases and Python for 30 first-year students; wrote the SQL exercises and marking guide.

PROJECTS

Campus bike-share API

Capstone project: FastAPI service with PostgreSQL, booking logic and a Docker Compose setup.

Recipe recommender

Course project using SQLite full-text search and a simple scoring function.

EDUCATION

B.Sc. Applied Computer Science, Hochschule Elbe (fictional)
