Sofia Garcia

Full Stack Engineer - Node.js and React

sofia.garcia@example.com | 555-0104 | Toronto

Target role: Full Stack Engineer | SYNTHETIC SAMPLE CV - fictional person, for software testing only

PROFESSIONAL SUMMARY

Full stack engineer with 5 years of experience shipping features end to end for a healthcare scheduling product, from SQL schemas to React interfaces.

TECHNICAL SKILLS

JavaScript, React, Node.js, SQL, PostgreSQL, TypeScript, Express, Docker, AWS (EC2, S3, RDS), Git, GitHub Actions

EXPERIENCE

Full Stack Engineer, CareSlot Health (fictional) [3 yrs]

- Built an appointment-booking flow: Node.js endpoints, PostgreSQL exclusion constraints to prevent double booking, and a React calendar UI.
- Added Dockerised preview environments per pull request using GitHub Actions and AWS.
- Reduced the booking page bundle by 35% by lazy-loading the calendar library.

Web Developer, Maple Digital Agency (fictional) [2 yrs]

- Delivered React and Express projects for clients, including a membership portal with billing in test mode.

PROJECTS

Clinic waitlist app

React and Node.js app that notifies patients by email when earlier slots open.

Schema linter

Script that checks PostgreSQL migrations for missing indexes on foreign keys.

EDUCATION

B.Sc. Software Engineering, Great Lakes University (fictional)
