Chen Wei

Junior Frontend Developer

chen.wei@example.com | 555-0105 | Chengdu

Target role: Frontend Engineer | SYNTHETIC SAMPLE CV - fictional person, for software testing only

PROFESSIONAL SUMMARY

Bootcamp graduate with 1 year of freelance experience building small-business websites. Learning React and testing.

TECHNICAL SKILLS

HTML, CSS, JavaScript, React (hooks, learning), Tailwind CSS, Git, Figma handoff, REST API consumption

EXPERIENCE

Freelance Web Developer [1 yr]

- Built five responsive sites for local businesses with HTML, CSS and JavaScript; managed content through a headless CMS.
- Improved one site's mobile load time by compressing images and lazy-loading sections.
- Agreed scope and weekly demos with clients, and fixed browser-specific layout bugs reported after launch.
- Added a contact form with client-side validation and accessible error messages, tested with a screen reader.

PROJECTS

Weather dashboard

Small app using a public weather API, with debounced search and local-storage favourites.

Todo board

Drag-and-drop kanban built with plain JavaScript and then rebuilt in React with useReducer.

Portfolio site

Responsive personal site in HTML and CSS Grid with a dark mode toggle stored in local storage.

EDUCATION

Frontend Development Bootcamp, Sichuan Code School (fictional); B.A. Graphic Design (fictional)
